APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office APR 1 3 1995
Returned to applicant for correction MAY 2 2 1995
Corrected application filed JUL 1 7 1995 Map filed JUL 1 7 1995
The applicant Santa Fe Pacific Gold Corporation
P.O. Box 69 Of Golconda Street and No. or P.O. Box No. City or Town
Nevada 89414 hereby make application for permission to change the
Point of Diversion. Place of Use and Manner of Use Point of Diversion. Place of Use and Manner of Use Point of diversion, manner of use, and/or place of use
of water heretofore appropriated under #53340 for DW-10 Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and
identify right in Decree.
<u> </u>
1. The source of water is underground Name of stream, lake, underground spring or other source.
2. The amount of water to be changed 1.0 cfs Second feet, acre feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for mining milling and domestic purposes. Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
4. The water heretofore permitted for mining, milling and domestic purposes. Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
5. The water is to be diverted at the following point. NW SE Section 19. T. 39N. R. 43E. M. D. R. &M. Describe as being within a 40-acre subdivision of public survey and by course and
or at a point from which the N.E. corner of said Section 19, T.39N., R.43E., distance to a section corner. If on unsurveyed land, it should be stated. M.D.B.&M bears N. 38 ^o 22' 08"E. a distance of 4.092.0 feet.
6. The existing permitted point of diversion is located within SE1 NW Section 19 T.39N R.43E., If point of diversion is not changed, do not answer.
M.D.B.&M., Tie: a bearing of N. 290 49 F. and a distance of 1,704.8 feet to the
North Quarter Corner of Section 19, T.39N., R.43E., M.D.B.&M.
7. Proposed place of use See Attachment "A" and Place of Use Man. Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
8. Existing place of use Sections 19 20 21 28 29 30 31 32 33 T 39N R 43E Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or
M_D_B_&M
December 27
9. Use will be from January 1 to December 31 of each year. Month and Day Month and Day
10. Use was permitted from lanuary to December 31 of each year. Month and Day Month and Day
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Well, pump, motor, distribution system.
ditches, pipes and flumes, or drilled well, etc.
12. Estimated cost of works \$350,000.00 Well completed with 18-inch diameter casing to a
13. Estimated time required to construct works depth of: 896 feet. Pumping handware has been in-

stalled, along with a continuous reading flow meter.

14. Estimated time required to complete the application of water to beneficial use3years	
15. Remarks: For use other than irrigation or stock watering, state number and type of units consumptive use:	s to be served or annual

(PERMIT TERMS CONTINUED)

The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights. Any water pumped and not used for mining and milling purposes shall be injected back to the Kelley Creek Groundwater Basin.

The design of the infiltration system or other disposal method and the delivery system to the site shall be submitted to the State Engineer for approval prior to any diversion of water. The permittee shall discharge water in a manner to achieve maximum conservation of the water resource. It is understood that this right must allow for a reasonable lowering of the static water level.

The State Engineer will retain the right to require additional monitoring including; water levels in observation and monitor wells and of the flow rates of surface sources. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

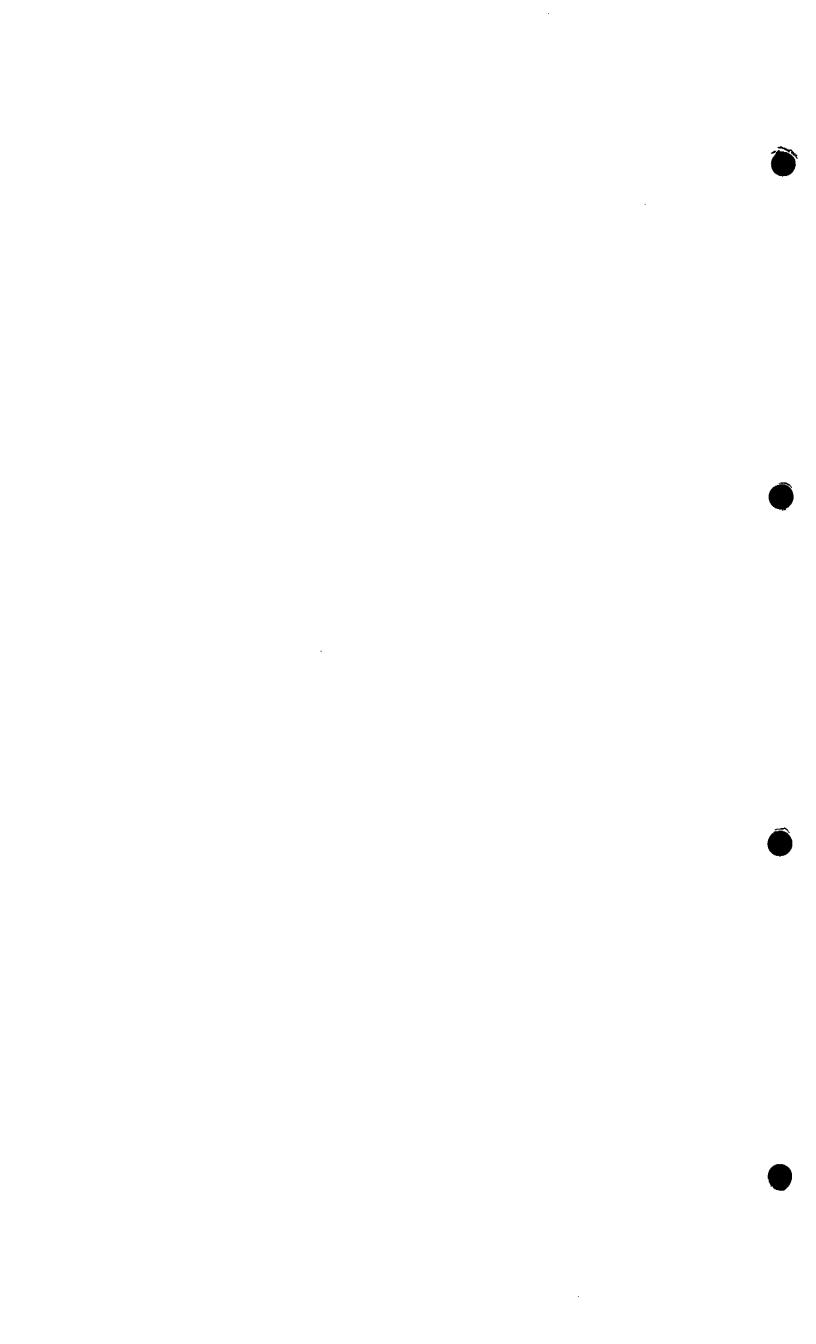

The total combined duty of water for consumptive purposes under Permits 49633, 49634, 50853, 50854, 52046, 52048, 52049, 52050, 52051, 58042, 58043, 58044, 58045, 60048, 60049, 60050, 60051, 60052, 60053, 60054, 60055, 60056, 60057, 61132, 61133, 61134, 61135, 61136, 61137, 61138, 61140, 61141, 61142, 61143, 61144, 61798, 61799, 61800, 61801, 61802, 61803 and 61804 shall not exceed 6,121.0 acre-feet annually. The total combined diversion rate of the above referenced permits shall not exceed 30.75 cubic feet per second on an instantaneous basis.

This permit is issued subject to and also incorporates the terms and conditions set forth in the State Engineer's Ruling No. 3606, dated May 19, 1989.

Monthly records will be kept of the following: The volume of water pumped from each well, the measurement of pumping water level (drawdown) from each production well and each monitoring well, the volume of water consumptively used for mining and milling uses projectwide, and the amount of water discharged for infiltration. These records will be submitted within 15 days after the end of each calendar quarter. A method that estimates the amount of evaporative losses from the discharge system shall be submitted with the monthly report. The evaporative losses will be considered as part of the combined duty for consumptive purposes.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.

Attachment to Application to Change Point of Diversion, Manner of Use and Place of Use of the Public Waters of the State of Nevada Heretofore Appropriated

Remarks: [continued from application] Pumping pursuant to the portion of the base water right described in this application (#53340) is presently occurring at the point of diversion described in this application pursuant to temporary permit no. 61033T. The purpose of this application is to eliminate the need for filing temporary applications on an annual basis by permanently moving the referenced portion of the base water right to the existing effective point of diversion. In the event this application is approved, temporary permit no. 61033T will expire and be instantaneously replaced by this approved permit.
